# THE PARK QUESTION.

The Ezyptian Government persists in refusing to consign to the Alexandria Municipality the fortifications on the southern side of the Rosetta Gate. Although the work of converting the site of the old fortifications into parks on the North side is very far advanced we fail to see that any plausible reason for this attitude can be sustained. It is to be noted that the letter from the Ministry of the Interior to the Alexandria Municipality simply consists of a categorical refesal and does not vouchsafe a single reason for this non possumus policy. We have always maintained that it is absolutely necessary to give a "lung" to the densely populated quarters of the Attarin district of the city. and it is this part of Alexandria which will be especially affected by this most unfortutunate decision of the Government. It is to be hoped that the attitude of the Ministry of the Interior will be medified in reference to this matter as soon as the Financial Ad-The weather yesterday was fine and fresh all day. viser and the Administrator of the Municipality have returned from their summer holidays.

The work has been actively progressing on the side towards the sea, and it is anticipated that Alexandria will soon have a splendid and picturesque promenade extending from the Rosetta Gate right along the Rue d'Allemagne. The preliminary arrangements for such a grand scheme require years of preparation and the Municipality has already despatched M. Monfront, the well-known horticulturist, to Europe in order to make the necessary purchases, of trees, plants, and shrubs. When these arrive at Alexandria they will be placed in the nurseries of the Municipality in order to be prepared for transplantation in the parks. The fortifications on the south side extend from the Rosetta Gate by the Menasce Avenue almost to the Moharrem Bey Gate. This should afford a magnificent series of promenades skirting a large portion of the land side of the city. Besides this there is a great extent of old fortifications in the district by Bab Sidra and it is not improbable that eventually these also may be incorporated in the scheme, which is destined to surround Alexandria with a belt of pleasant and eye-reposing verdure.

# OUR MUNICIPAL COUNCILLORS.

In another column we publish the official

report of Saturday's meeting of the Alexandria Municipal delegation. It will be observed that most of the important questions were postponed. The reason is obvious. As our Municipal Conneillors indulge in extraordinarily long summer holidays, no serious business can be transacted in the holidays. Time after time ne quorum is obtained at the meetings of the ing Saturday. We would very much like to know why no plenary meeting of the Municipal Commission took place in the month of August, although the regulations are that at least one meeting should take place every month throughout the year. The official reports of the meetings of the Municipal Delegation, which we publish every week, show that there is quite enough business to be transacted in the way of credits and "reglements," but owing to the slackness that prevails nothing is done. Some time ago a correspondent wrote to suggest that a regulation should be made to the effect that when a Municipal Councillor had the honour of being elected, he should forego his annual long summer holiday and at least only go to Europe every other year. Under the present system the Municipality's activities are absolutely paralysed for fully six months out of the twelve.

A telegram despatched from Lyons on yes- greater skill. terday week to the "Petit Parisien," gave the following de'ails of Princess Fazil's death :-

Princess Rouskiya Pazil, of Cairo, was taken suddenly ill last night in her carriage while driving through the little village of Tourronde. A balt was made at a wayside cafe, and the sofferer was placed on a mattress, on which she expired before medical assistance could be obtained from Evian.

The family of the late Princess Rouskiya received telegraphic information that body of the Princess left Marseilles last Thurswhich is due here to morrow. The body will be received by the Princes of the Khedivial Pamily, H. B. Adib-Bey, son of the deceased, and Izzet Bey Choukri, son-in-law, and will be conveyed direct to Cairo by special train. The funeral will take place on Wednesday.

# FACTIONS IN JERUSALEM.

There took place recently around the Holy Places in Jerusalem a remarkable diplomatic struggle, which went on without intermission for 22 hours. Feuds between Greek and Latin were at the root of the question. Some months ago the Russians at the Holy Places had made a violent onslaught against the dent. The Duchess assisted in nursing the boy Franciscan monks there, and having completed their preparations, threatened another attack if their pretentions were not recognised. Of this plot the intended victims had heard some rumour, and took action, which set all the Consular representatives of all the Powers so actively to work that the Turkish Governor of Jerusalem was literally compelled to give a decisive judgment between the Latins and the Greeks. He decided for the Latins.

# CARRIED OFF BY EAGLES.

(Reuter) that took place last week at Rasss, in the very careful observation. An appendix con- in a park of about 160 acres, with a stone Varallo district of Ita'y, brings out vividly tains a most interesting report of similar ex- bridge across the Stour, built by the last Sat. 6

DECIMATED BY TYPHOID.

Army manœuvres in weather like that of the past few weeks are peculiarly liable to breed epidemics among the masses of men herded together. A battalion of French chaseurs Tues. 18 mobilised at Saint Maur has been for three weeks ravaged by typhoid fever, loving many valuable lives, and being practically rendered or fit for service. The extent to which the battalion has suffered is said to amount to decimation, and despite everything that the army medical service can devise, the source of the outbreak is neither establi-hed nor does it seem

SOLDIER'S FOOD.

UNSAVOURY POSSIBILITIES OF CANNED GOODS.

So far as the soldier's food in peace-time is concerned, writes "Ex Non.-Com." in the 'United Service Magazine," it only remains to be said that in spite of all that has been done the amount paid for messing still does not allow of an "extra" -other than occasional "dripping" or jam-being provided for tea, or anything at all for supper." As a consequence, healthy soldier is required to go from 4.30 p.m. (when his meal consists of what bread he has remaining from breakfast and dinner, washed down with tea) to 8 a.m. the following morning without food other than what he privately buys. There is also the disability, chiefly felt in sergeant's messes, of being restricted to the purchase of canteen goods, which do not always conform to the requisite standard of freshness and variety. The many serious cases of ptomaine poisoning that occurred during the manœuvres of 1903 may be cited in support of this, to say nothing of the undesirability of accustoming the soldier to the use of canteens whilst undergoing actual active service training. The Chicago scandals called public attention

to a matter already amply appreciated by the soldier. But there are three other points, besides the unsavoury possibilities of canned goods, which need reform, so far as the soldier on active service is concerned. They are: the average tinned meats, even when sound, are too tough and far too salty for troops desperately hard put to it to satisfy abnormal thirsts; the difficulty in opening the tine causes some needlessly protracted hunger, ptomaine poisoning at times, and blunted bayonets always; and the necessity on forced marches of making the troops carry their own preserved rations is a hard and dangerous one, when each tin of meat weighs as much as six or seven pounds, resulting in a general casting of the unacoustomed weight. As regards the fact that Australian mutton is tinned in a drawbacks are not inevitable; some more reliable opener than the key method needs to

In the suburbs of Bombay, at Matunga, is localities; but the plant, given a reasonable | Perhaps of more importance is the question situated the Ackworth Leper Asylum, main- scope of ground, is of the most inexpensive of the supply of vegetables on active service. tained chiefly by Municipal funds, but of late description, the cost of water for flushing is The compressed vegetables are packed in un-Mr. Haldane, speaking in Newcastle-on- years very largely self-supporting. Some years reduced to a minimum by utilizing the gas, wieldy tins, and are not half so satisfying as but that there must be co-operation among the Committee of Management; and it is there of gas do not exceed the cost of lo.tt. of lime which were tried among certain regiments in Powers. England could not afford to put herself that he has experimented with the sewage of to each 3,0000. ft. of gas, plus the wages of a South Africa and enthusiastically welcomed.

# A PRINCE OF MACEDONIA.

German newspaper has got a curious stery from Constantinople which is probably a "kite" sent up by some interested parties to ! ascertain how the political wind blows. The story goes that a scheme will be put forward for constituting Macedonia and Old Serbia an autonomous State, with Prince Mirko of Montenegro as the Governor-General. This project is said to be supported by England, and Austria. Certainly, putting Turkey aside, for her refusal to consent is part of her existence as a European Power, the most strenuous Sturry Court, near Canterbury, which has opposition would be offered by Austria to any just been purchased by Viscount Milner, is of such a project, for its acceptance would mean destroyed and the windows in the neighbouring in Damaraland and East Africa has aggravated mentioned incidentally that the author does much historic and antiquarian interest. The
